Thanks. Yes let's talk at the break.

This is HAMP related and Jarrett is a new hire at Hopi, I haven't met him yet.

Hi Emmanuelle,

I wanted to let you know that we received this email from the Hopi tribe regarding the Assistance for Small and Disadvantaged Communities grant. We can talk more about this if you'd like.

**Subject:** WIIN Grant

Good afternoon,

I have a question regarding the WIIN Grant: Assistance for Small and Disadvantaged Communities Drinking Water Grant. I am the Water Resources Program Manager for the Hopi Tribe, located in Northeastern Arizona. Our tribe consists of three mesas and among these mesas lay individual villages. We refer to these mesas as First, Second and Third mesa. First and Second mesa residents are receiving arsenic levels above the EPA's .010 ppm. There is a planned project to bring water from another area of the Hopi Reservation and pipe it to these communities. This project isn't scheduled for completion for 3 to 5 years. The community members are growing more concerned each day and are looking for a quicker remedy. Would this grant be able to assist with this?

Thank you,

Jarrett Calnimpewa
